

WAKAKU
JAPANESE RESTAURANT

Popular Japanese liquor made from plum and sugar with a sweet and sour taste. Umeshu traditionally is served on the rocks, with tonic water or soda water.

Umeshu

Choya Classic (glass)	160
Choya Classic (bottle)	990

Sake is a Japanese alcoholic drink made from fermented rice, koji and water. It may be served at room temperature, warm, hot or chilled. This often depends on the season, the quality of the alcohol and the drinker's preference. Top quality sake is not served hot, as the heat causes loss of flavor and aroma.

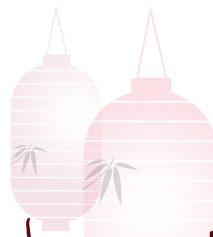

Sake
